

Tork Premium PT Jumbo Doux

9,8 cm | 360 m | 2 pli(s)

N° Article	110273
Système	T1 Système Papiers toilette Jumbo
Avantages	Doux
Pli(s)	2
Couleur	Blanche
Impression	No
Longueur du rouleau	360 m
Largeur du rouleau	9,8 cm
Diamètre	26,0 cm
Feuilles	1800
Ancien nom de produit	T- TORK PLUS 2P

Caractéristiques du produit

Adapté aux environnements à forte fréquentation
Papier toilette blanc
Longueur de rouleau économique

Conditionnement

Spécifications Unité Consommateur

Pcs/Con: 1

Poids brut/con: 1,2875 kg

Poids net/con: 1,18541 kg

EAN Con: 7310791268408

Spécifications Unité Transport

Emballage trp: Carton

Con/Trp: 6

Longueur, trp: 545 mm

Largeur, trp: 274 mm

Hauteur, trp: 312 mm

Volume, trp: 0,04659 m³

Poids brut, trp: 7,725 kg

Poids net /trp: 7,11246 kg

Ean trp: 7310791268415

Pcs Trp: 6

Trp Palette: 36

Matériel

Recycled fibres

Pulp from recycled fibres is produced from print house and office waste paper as raw material. The process includes different cleaning, de-inking and conditioning steps using high-tech equipment.

Using recycled fibres in the recipe to produce the tissue paper brings noticeable environmental benefits :

- Less forest land usage per tonne of tissue produced
- Considerable decrease in energy consumption
- Significant reduction of acidification potential due to less air emissions (SO₂, NO_X) from production processes. The acidification means the increase of the PH in the atmosphere that hence causes the acid rain with its negative consequences.
- Substantial reduction of aquatic oxygen depletion potential due to less discharges to water (COD, N, P). Aquatic oxygen depletion occurs when the organic mater present in the water degrades and therefore consumes oxygen. Reduction of oxygen in the water bodies endangers aquatic life.

Production

This product is produced in Lilla Edet mill, Sweden, certified according to ISO 9001:2000, ISO 14001 and EMAS.

Approved and labeled according to "Swan". License no. 305003.

Destruction

This product is suitable to be taken care of in the normal sewage system of the community.
